

# Miners Mischief

## Pinot Noir 2022

### Central Otago, New Zealand

The first permanent residents of Central Otago came looking for grazing land but some found gold instead. Keeping new discoveries a secret as long as possible was key to maximizing profits for early prospectors. Although many stories have been lost with time some survive. This wine is a tribute to those early pioneers whose endeavors helped shape the region we know today.

### The Wine

This wine is dark garnet with purple hues in colour. On the nose it is fragrant with violet, red cherry, blackberry, dark plum aromas. A fruit driven wine with concentrated black plum, red cherry and mocha notes. Ample silky fine tannins, toasty oak and a long ripe berry finish.
